Manufacturing facility in Salas Nocajski

Animal feed factory HRANA PRODUKT was founded in 1992 as a small family business in the midst of Serbia's fertile fields. Over the past three decades, the once small family business has developed into a company acknowledged and recognized for its product quality and reliability in both domestic and foreign markets.

From the very beginning, our company's key aim is creating reliable, safe, quality products. In order to keep up with the newest market requirements in the animal feed production industry, we are constantly investing in staff knowledge, improvement of technological processes as well as the development of storage, production and transport capacities. As a result of these pursuits, HRANA PRODUKT has over the past three decades been developing into a well-networked system covering a wide variety of activities such as grains and oil plants storage and drying services, production of soybean meal, cake and oil, production of premixes, production, transport and sale of complete and supplement animal feed mixes as well as broiler fattening.

We believe clients are our strategic partners. Therefore, our mission is to ensure quality in order to enhance our clients' production and achieve mutual growth.

Manufacturing facility in Sremska Mitrovica

hrana produkt

In line with the constant increase in market demand and production volume, HRANA PRODUKT has, year after year, been expanding its storage and production capacities, sales and transport networks as well as the number of employees. Today HRANA PRODUKT has over 42 000 t of silo storage capacity, over 5000 m² of warehouse area and the production is operated in two factories. The company possesses its own vehicle fleet, retail premises and broiler fattening farms (100 000 broilers per cycle).

In addition, HRANA PRODUKT possesses its own laboratory in which the quality of raw materials and final products is controlled. Quality raw materials of controlled origin and keeping up with the latest technology are key to our products' high quality. Investments are constantly made in order to expand capacities while the production process and technologies are constantly improved.

Animal feed

PRODUCT RANGE

Commercial line:

Complete and supplement mixes: **LIDER, LAJT, PREMIA** for all domestic animal categories in packages of 10, 20 and 25 kg.

Farm line in packages of 10 and 20 kg and in bulk.

Premixes and supplements:

PROVIT, PREMIA, AMINO, HRANINO, HRANAMIKS for all domestic animal categories, concentration from 0,5 to 10% in packages of 1 to 30 kg.

Broiler fattening farm in Kovacevac

LIDER

COMPLETE AND SUPPLEMENT MIXES

NUTRITION CONCEPT FOR FATTENING BROILERS

**THREE PHASE
DIET**

LIDER ŽB 1-22%
(with coccidiostat from 1 to 21 days of age)

LIDER ŽB 2-19%
(with coccidiostat from 22 to 32 days of age)

LIDER ŽB 3-17%
(from 33 days of age until the end of fattening)

RECOMMENDED

LIDER ŽB 1-22%

with coccidiostat

**COMPLETE MIX FOR FATTENING BROILERS I
UP TO 21 DAYS OF AGE**

Feed type: mash, crumble

Packaging: 10 and 20 kg

RECOMMENDED

LIDER ŽB 2-19%

with coccidiostat

**COMPLETE MIX FOR FATTENING BROILERS II
FROM 22 TO 32 DAYS OF AGE**

Feed type: mash, pellet

Packaging: 10 and 20 kg

RECOMMENDED

LIDER ŽB 3-17%

**COMPLETE MIX FOR FATTENING BROILERS III
FROM 33 DAYS OF AGE UNTIL THE END OF
FATTENING**

Feed type: mash, pellet

Packaging: 10 and 20 kg

LIDER ŽB-40%

without coccidiostat

**SUPPLEMENT MIX FOR FATTENING
BROILERS AND TURKEY POULTS**

Packaging: 10 kg

Add corn groats to 10 kg of supplement mix:

18 kg for broilers from 22 to 32 days of age (19%)

25 kg for broilers from 33 days of age until the end of fattening (17%)

20 kg for turkey poults over 10 weeks of age

Benefits of use

- Higher quality source of protein and energy
- More meat
- Lower feed consumption
- Higher quality meat

Preparation recommendation for 100 kg of complete mix:

Feedstuffs	Fattening broilers from 22 to 32 days of age (19%)	Fattening broilers from 33 days of age until the end of fattening (17%)	Fattening turkey poults over 10 weeks of age
LIDER ŽB-40%	34	28	33
Barley	/	/	10
Corn	66	72	57

NUTRITION CONCEPT FOR HENS LAYING EGGS FOR CONSUMPTION

LIDER ŽKN 16,5%

COMPLETE MIX FOR HENS LAYING EGGS FOR CONSUMPTION DURING THE FIRST HALF OF EXPLOITATION

Feed type: mash, pellet
Packaging: 10 and 20 kg

LIDER ŽKN 15%

COMPLETE MIX FOR HENS LAYING EGGS FOR CONSUMPTION DURING THE FINAL STAGE OF EXPLOITATION

Feed type: mash, pellet
Packaging: 10 and 20 kg

Benefits of use:

- Better quality eggshells
- More eggs
- Better fitness of the hens
- More intensive yolk color

LIDER ŽKN 30%

SUPPLEMENT MIX FOR HENS LAYING EGGS FOR CONSUMPTION

Packaging: 10 and 20 kg

Feedstuffs	Laying hens from 18 to 35 weeks of age		Laying hens over 35 weeks of age	
	I	II	I	II
LIDER ŽKN-30%	36	38	33	35
Barley	14	/	20	/
Corn	50	62	47	65

Add 18.5 kg of corn groats to 10 kg of supplement mix

NUTRITION CONCEPT FOR PIGEONS

LIDER G-18%

COMPLETE MIX FOR YOUNG PIGEONS

Feed type: pellet
Packaging: 10 and 20 kg

LIDER G-15%

COMPLETE MIX FOR PIGEONS

Feed type: pellet
Packaging: 10 and 20 kg

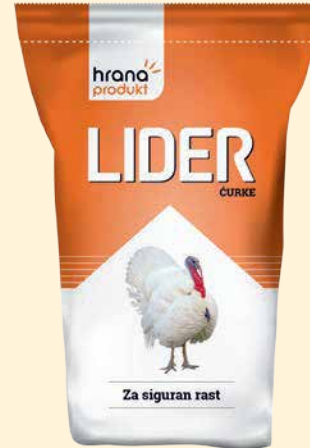

NUTRITION CONCEPT FOR FATTENING TURKEYS

TURKEY FEEDING PROGRAM

Feed	Weeks of age
LIDER ĆU 1-28%	Up to 4
LIDER ĆU 2-24%	5-8
LIDER ĆU 3-20%	9-12
LIDER ĆU 4-16%	Over 12

RECOMMENDED

RECOMMENDED

LIDER ĆU 1-28%

with coccidiostat

COMPLETE MIX FOR FATTENING TURKEYS I FROM 1 TO 4 WEEKS OF AGE

Feed type: crumble
Packaging: 10 and 20 kg

Benefits of use:

- Farm quality
- High quality feedstuffs, easily digestible feed

LIDER ĆU 2-24%

with coccidiostat

COMPLETE MIX FOR FATTENING TURKEYS II FROM 5 TO 8 WEEKS OF AGE

Feed type: pellet
Packaging: 10 and 20 kg

- High liveweight gain
- Better quality meat
- Lower mortality rate

RECOMMENDED

RECOMMENDED

LIDER ĆU 3-20%

with coccidiostat

COMPLETE MIX FOR FATTENING TURKEYS III FROM 9 TO 12 WEEKS OF AGE

Feed type: pellet
Packaging: 10 and 20 kg

LIDER ĆU 4-16%

COMPLETE MIX FOR FATTENING TURKEYS IV AFTER 12 WEEKS OF AGE

Feed type: pellet
Packaging: 10 and 20 kg

COMPLETE AND SUPPLEMENT MIXES FOR PIGS

**Products do not contain:
Genetically modified organisms (GMO)**

www.hranaprodukt.com

NUTRITION CONCEPT FOR PIGLETS

RECOMMENDED

LIDER PREDSTARTER

COMPLETE MIX FOR SUPPLEMENTING SUCKLING PIGLETS

Feed type: crumble
Packaging: 10 kg

RECOMMENDED

LIDER START PIGLET

COMPLETE MIX FOR PIGLETS UP TO 15 KG (DURING THE WEANING PERIOD)

Feed type: crumble
Packaging: 10 kg

LIDER SG - 20

COMPLETE MIX FOR PIGLETS I (FROM 7 TO 15 KG)

Feed type: crumble
Packaging: 10 kg

Benefits of use:

- Easily digestible feedstuffs
- Increased appetite
- Higher liveweight gain
- Protection from diarrhea
- Faster adaptation to solids

LIDER SG-18%

COMPLETE MIX FOR PIGLETS II (FROM 15 TO 25 KG)

Feed type: mash
Packaging: 10 kg

RECOMMENDED

LIDER GROVER

COMPLETE MIX FOR PIGLETS II (FROM 15 TO 25 KG)

Feed type: pellet
Packaging: 10 kg

Benefits of use:

- Farm quality
- Better protection from diarrhea
- Higher liveweight gain

LIDER SP-40

SUPPLEMENT MIX FOR PIGLETS

Packaging: 10 kg

Feedstuffs	Piglets up to 40 kg	Fattening pigs
LIDER SP-40	25	20
Corn	65	65
Barley	10	15

Add corn groats to 10 kg of supplement mix:

30 kg for piglets weighing up to 40 kg
40 kg for fattening over 40 kg

LIDER

COMPLETE AND SUPPLEMENT MIXES FOR PIGS

NUTRITION CONCEPT FOR FATTENING PIGS

LIDER ST 1-16 %

COMPLETE MIX FOR GROWING AND FATTENING PIGS FROM 25 TO 60 KG

Feed type: mash, pellet

Packaging: 20 kg

LIDER ST 2-14 %

COMPLETE MIX FOR FATTENING PIGS FROM 60 TO 100 KG

Feed type: mash, pellet

Packaging: 20 kg

LIDER ST 3

COMPLETE MIX FOR FATTENING PIGS OVER 100 KG

Feed type: mash, pellet

Packaging: 20 kg

NUTRITION CONCEPT FOR BREEDING PIGS (SOWS AND BOARS)

LIDER SKD-16 %

COMPLETE MIX FOR LACTATING SOWS AND BOARS

Feed type: mash, pellet

Packaging: 20 kg

Benefits of use:

- *More piglets*
- *Better fitness of the sows*
- *Entering estrus faster*

NUTRITION CONCEPT FOR FATTENING PIGS

LIDER ST-35

SUPPLEMENT MIX FOR FATTENING PIGS

Packaging: 10 kg

Feedstuffs	Fattening pigs up to 60 kg		Fattening pigs over 60 kg	
	I	II	I	II
LIDER ST-35	25	25	20	20
Barley	/	20	/	25
Corn	75	55	80	55

Add corn groats to 10 kg of supplement mix:

30 kg for pigs up to 60 kg (3:1)

40 kg for pigs over 60 kg (4:1)

LIDER SPK-35

SUPPLEMENT MIX FOR BREEDING PIGS

Packaging: 20 kg

Feedstuffs	Lactating sows		Gestating sows	
	I	II	I	II
SPK-35	25	25	20	20
Barley	/	23	-	25
Corn	60	40	65	40

RECOMMENDED

PREMIA SUPER STARTER

SUPPLEMENT MIX FOR PIGLETS I FROM 7 TO 15 KG

Packaging: 10 kg

Feedstuffs	Piglets from 7 to 15 kg	
	I	II
PREMIA SUPER STARTER	25	25
Wheat / Barley	5	15
Corn	70	60

RECOMMENDED

PREMIA SUPER GROVER

SUPPLEMENT MIX FOR GROWING AND FATTENING PIGLETS FROM 15 TO 40 KG

Packaging: 25 kg

Feedstuffs	Piglets from 15 to 40 kg	
	I	II
PREMIA SUPER GROVER	25	25
Barley	10	/
Corn	65	75

Benefits of use:

- Premium farm quality
- High liveweight gain
- Higher meat content
- Shorter fattening period
- Lower conversion
- Better quality of feedstuffs and additives
- More amino acids

RECOMMENDED

PREMIA SUPER FINISHER

SUPPLEMENT MIX FOR FATTENING PIGS OVER 40 KG

Packaging: 10 kg

Feedstuffs	Fattening pigs over 40 kg	
	40-80 kg	over 80 kg
PREMIA SUPER FINISHER	20	15
Barley	20	20
Corn	60	65

COMPLETE AND SUPPLEMENT MIXES FOR RUMINANTS

COMPLETE MIX FOR FATTENING BULLOCKS OVER 350 KG

Feed type: mash, pellet

Packaging: 20 kg

LIDER

COMPLETE AND SUPPLEMENT MIXES FOR RUMINANTS

NUTRITION CONCEPT FOR DAIRY COWS

RECOMMENDED

LIDER GKM-20%

**COMPLETE MIX FOR DAIRY COWS
(OVER 30 L OF MILK PER DAY)**

Feed type: pellet
Packaging: 20 kg

Benefits of use:

- *More milk*
- *Better breeding condition*
- *Better quality of milk*
- *Protection from mycotoxins*

LIDER GKM-15% PLUS

**COMPLETE MIX FOR DAIRY COWS
(UP TO 20 L OF MILK PER DAY)**

Feed type: mash, pellet
Packaging: 20 kg

RECOMMENDED

LIDER GKM-18% PLUS

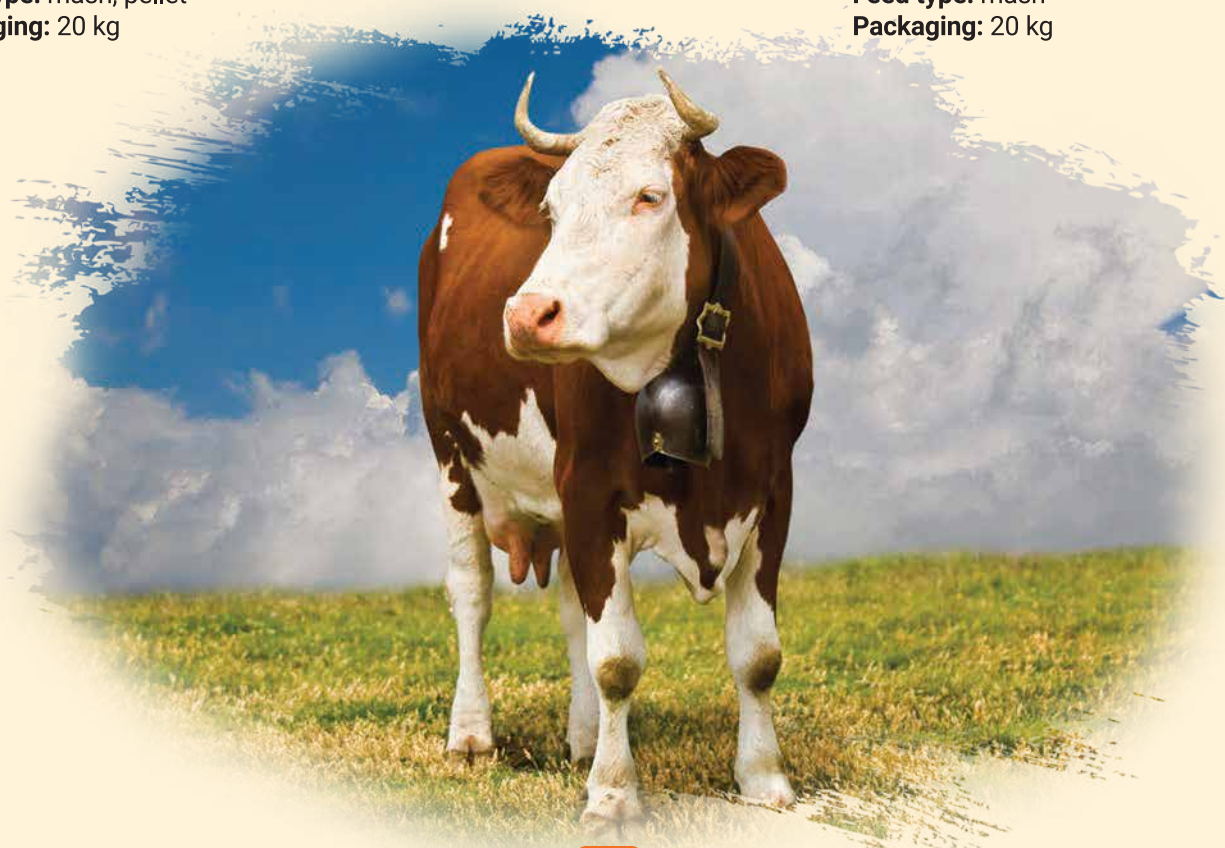

**COMPLETE MIX FOR DAIRY COWS
(OVER 20 L OF MILK PER DAY)**

Feed type: mash, pellet
Packaging: 20 kg

LIDER GKM-12%

**COMPLETE MIX FOR DAIRY COWS
(DRY COWS)**

Feed type: mash
Packaging: 20 kg

LIDER

COMPLETE AND SUPPLEMENT MIXES FOR RUMINANTS

NUTRITION CONCEPT FOR DAIRY COWS

LIDER GKM-35%

RECOMMENDED

**SUPPLEMENT MIX FOR DAIRY COWS
(OVER 20 L OF MILK PER DAY)**

Packaging: 20 kg

Feedstuffs	Dairy cows over 20 l of milk per day	
LIDER GKM-35%	35	35
Barley	30	/
Wheat millfeed	20	30
Corn	15	35

LIDER GKM-30%

**SUPPLEMENT MIX FOR DAIRY COWS
(UP TO 20 L OF MILK PER DAY)**

Packaging: 20 kg

Feedstuffs	Dairy cows up to 20 l of milk per day	
	I	II
LIDER GKM-30%	30	30
Barley	/	30
Wheat millfeed	20	20
Corn	50	20

Benefits of use:

- Larger milk yield
- Better breeding condition
- Higher quality feedstuffs

COMPLETE AND SUPPLEMENT MIXES FOR RUMINANTS

NUTRITION CONCEPT FOR LAMBS AND SHEEP

LIDER OJ-18% PLUS

RECOMMENDED

with phytogenic additive

COMPLETE MIX FOR GROWING AND FATTENING LAMBS UP TO 15 KG

Feed type: pellet
Packaging: 10 and 20 kg

LIDER OJ-16%

COMPLETE MIX FOR GROWING AND FATTENING LAMBS FROM 15 TO 30 KG

Feed type: pellet
Packaging: 10 and 20 kg

LIDER OJ-35% PLUS

with phytogenic additive

SUPPLEMENT MIX FOR LAMBS

Packaging: 10 kg

Feedstuffs	Lambs up to 15 kg	Lambs over 15 kg
LIDER OJ-35% PLUS	33	25
Wheat millfeed	15	15
Corn	52	60

Benefits of use:

- Quality easily digestible feedstuffs
- High liveweight gain
- Protection from diarrhea

LIDER OV-16%

COMPLETE MIX FOR LACTATING SHEEP

Feed type: pellet
Packaging: 20 kg

LIDER OV-14%

COMPLETE MIX FOR GESTATING SHEEP AND EWE LAMBS

Feed type: pellet
Packaging: 20 kg
